		<b>Subtotal</b>	
Five (5) Times			
<b>Total Permit Fees</b>		<b>Min. Charge for any Permit 40.00</b>	

Notice: An electrical permit becomes null and void if work or construction authorized is not commenced within 90 days of issuance or if construction or work is suspended or abandoned for a period of 90 days at any time after work is commenced. Before such work can be recommenced, a new permit shall be obtained. A written request from the permit holder prior to termination may extend an electrical permit up to an additional 90 days. Refund of Fees: That portion in excess of \$50.00 is eligible to be refunded to a permit holder if a request is made in writing within 90 days of the issuance of such permit providing work has not commenced and an inspection has not been made. Additions to Permit: Where additional permits by the same contractor on the same job are necessary, the minimum fee does not apply providing the additional permit fee is received prior to the contractor's request for final inspection.

I hereby certify that I have read and examined this application and know the same to be true and correct. It is hereby agreed, between the undersigned and the Town of Somers, that for and in consideration of the electrical permit to be issued and granted; that the electrical installation described in this application will be installed or altered in strict compliance with Electrical Code of the Town of Somers, and all amendments thereto; to obey all lawful orders of the Town of Somers; and to install all electrical equipment as described in this Electrical Permit Application in a safe, legal and workmanlike manner. It is further understood that the granting of the electrical permit does not presume to give authority to violate the provisions of any State of Wisconsin Statutes or Town of Somers Ordinances regulating constructions or the performance of construction.
