Great Lakes Emergency Erosion Control Self Certification

Form 3500-127 (R 12/19)

Notice: Pursuant to s. 30.12, Wis. Stats, permitting is required to place materials below the ordinary high water mark along the Great Lakes unless the activity is exempt. This form should be completed and submitted to the Department to self certify emergency erosion control projects along the Great Lakes. Personally identifiable information collected will be used for administrative purposes and may be provided to requestors to the extent required by Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.]

Professional Standards

- By checking this box, I certify that the temporary emergency control measure will comply with the following standards:
- This project is located on the Great Lakes or Bay of Green Bay
 - This project is intended to address an emergency shoreline erosion concern
 - If using rock, stone, or heavy concrete (no re-bar, no metal, no painted concrete, and material shall be free of fines). Material shall be large, non-flat, angular, interlocking pieces and sufficient weight to remain in place.
 - Filter fabric shall be placed along the bank prior to the placement of material.
 - No temporary material will be allowed on the bluff face. Material shall be placed at the toe of the slope if on a bluff face.
 - Material shall be placed at a 2 foot horizontal to 1 foot vertical slope and shall not be placed above the top of the bank.
 - Material shall be placed along the natural contour of the shoreline.
- By checking this box, I certify that I understand a permit is needed for this activity and should be applied for within 18 months of completing this activity.

Permitting Information

Please proceed with your project upon submitting this signed form to the Department of Natural Resources. This form should be submitted to DNREmergencyShoreProtection@Wisconsin.gov.

Once your emergency situation has been addressed, please visit <https://dnr.wi.gov/permits/water/> to begin the permitting process for this project.

Certification

Based on the information provided, I believe that the temporary erosion control measure complies with the listed professional standards.

I understand that permitting is needed for this activity. I certify that the information provided is true, accurate, and complete.

NOTE: If submitting this request electronically, please type your name on the signature line. Your typed name, along with the email message generated from electronic submittal of this form, will be used as an electronic signature which is the legal equivalent to an actual signature.
