Steps with Descriptions and Screen Image Examples

1. Below are links to the Water Portal Page, program webpages and how to start the ePermits for the Water programs.
 - a. To get to the Water Permit Water Portal Page either:
 - i. Go to dnr.wi.gov and type in “Water Permit” into the search bar
 - ii. Go to dnr.wi.gov/permits/water/

At this page you can: **REGISTER** for a WAMS ID, **BEGIN** a new or edit an existing application, **VIEW** public notices of the DNR’s intention to authorize activity relating to water, including permits issued to the DNR, **TRACK** the status of Wisconsin’s water permits, and **WATCH** instructional training videos.

Towards the bottom of the webpage there are areas with links for the different permitting programs that can be used to navigate to the program webpages to learn more about the requirements for the various permit programs and does not expire. To view the links, click on the triangle to the left of the permitting program name.

2. A WAMS ID is required for applying for permits using the ePermitting System, but it is not required to view Public Notices, or Track the status of water permits. The WAMS ID is a secure login for all State of Wisconsin programs. Choose **REGISTER** to get a WAMS ID. Then navigate back to the **Water Portal Page** to start a new permit application or work on an existing one.
3. Choose **BEGIN** to log into the ePermitting system so that you can either start a new permit application or resume editing an existing one.

4. Login using your WAMS ID by clicking the **Public Access (WAMS ID Required) – Apply for WDNR Water Permit Applications** and filling in your WAMS ID and password

5. Then you will be redirected to the **My Permit Applications** webpage. Here you can either start a new application or continue editing an existing application.
 - a. To start new application: click **Waterway and Wetlands** from the list of Permit Categories along the left and move on to Step 6.
 - b. The existing permit applications will be listed under 3 categories. These categories are: **Step 1: Draft Permit Applications**, **Step 2: Signature Confirmation Needed**, and **Items Submitted to the DNR**.
 - c. To open an existing permit application and resume editing it, click the link under the Project Name heading under either **Step 1: Draft Permit Applications** or **Step 2: Signature Confirmation Needed**.
 - d. **Items Submitted to the DNR** is where applications that have been submitted to DNR will appear.

Welcome to the Wisconsin DNR Water Permits Site!

- **Select** a permit category from the left side menu.
- **Save** permit application drafts for editing. Items not modified within 90 days are automatically deleted.
- **Receive** acknowledgement of receipt when successfully submitted to the DNR.
- **Track** the status of a permit by selecting Submitted Applications from the left side menu.

Large format documents: If you plan to submit an application in hard copy with documents that are larger than 11x17, please also submit a copy of the document in electronic format on digital media, such as a CD.

Questions about fees?

Your total payment should be the SUM of ALL application fees and supplemental fees for EACH permitted activity for which you are applying.

For example, if you are applying for individual permits and a) your project involves a wetland fill that requires a wetland Individual permit; and b) involves the installation of a culvert in a waterway along with some dredging in a waterway; and you want the WDNR to publish all the required class 1 public notices; then your fee would be calculated as follows:

Wetland IP = (1 activity or \$800)

Waterway IP (Culvert) = \$600

Waterway IP (Dredging) = \$600 (2 activities or \$1200)

Fee for publishing class 1 notices = \$130

A supplemental Fee is assessed for Waterway Permits (\$3 for each waterway activity) = \$6

Total Application Fees for project = \$2136 (ALL of these permit fees added together)

To pay for your permit, enter one the number of activities you are applying for in the Fee Type section.

NOTE: If you suspect someone has submitted an application without your consent, please notify the Wisconsin Department of Natural Resources through the [issue submission](#) process.

Hints, Tips and Tricks

Using the **Assign Role** feature, you also have the ability to start a permit application and then share it with someone else. This feature is commonly used by consultants to start a permit application and get the attachments added to the permit application packet and then they will send the application to the landowner to review and then complete the payment and signature areas. Please note that if you use this feature, the permit application may not appear under the appropriate category area as described above.

If desired you can also send the application to another person, i.e. the landowner, so that they can review it, complete the payment portion of the application and sign & submit the application to DNR. This is done through the **Assign Role** feature on the “My Permit Applications” webpage discussed under #5. The landowner needs to have a WAMS ID set up already, and you need to know the email associated with it to send the application to them. Please refer to the link titled **Steps for a landowner and agent to share a draft permit** for in depth description of how to do this.

If you are having issues please refer to the [ASK FOR HELP](#) link along the left hand side. Someone will be in contact with you to help with your issue or answer your question.
