Bond filed with the Village Clerk: Made Payable to Village of Somers		
Amount: \$		Date:
Bond Refunded in Full:	Forfeited:	Date:

1. Proper barricades, sign, flags, lights, and flagmen shall be provided and maintained at all locations where construction and maintenance work interferes with normal traffic use of the highway. All markings and signing provided for traffic control purposes shall conform to the standards and specifications of the current issue of the Wisconsin Manual of Traffic Control Devices, Part V.
2. The applicant, his/her successors or assignees, agrees to hold harmless the Village of Somers and its duly appointed agents and employees against any action for person injury or property damage sustained by reason or exercise of the permit.

3. The proposed construction and exercise of this permit shall conform to the requirements of the Wisconsin Statutes, and to any regulations imposed by any legally constituted body having jurisdiction.
4. The Highway Department reserves the right to make such changes, additions, and relocations within statutory limits on the right of way as may at any time be considered necessary to permit the relocation, reconstruction, widening, and maintaining of the highway, or to provide proper protection to life and property on the highways.
5. The entire cost of construction, maintaining, removing, altering, or replacing the facility installed under this permit shall be the sole responsibility of the applicant, his successors or assigns, at the present time or any time in the future as may be directed by the Village of Somers or the Village of Somers Highway Department.
6. The roadway shall be kept open for traffic and/or emergency vehicles and the indicated number of lanes shall be provided. There shall be no interference with traffic due to the placing of excavated material or machinery on the lanes kept open for traffic, unless authorized for closure by the Village Highway Department.
7. All damages to the highway shall be repaired, and the roadway surface, shoulders, slopes, ditches, etc. shall be restored to a condition acceptable to the Village of Somers and/or the Highway Department as the sole cost and expense of the applicant. Any excavation within the shoulder of the road or the roadway pavement shall be filled using slurry and shall be inspected prior to paving by the Village Highway Department.
8. Where the permitted work involves open trenching and/or tunneling, temporary sheeting and shoring shall be used as necessary to prevent soil caving, or under mining of adjacent pavement.
9. A **\$5,000** performance or cash bond shall be filed with the Village of Somers Clerk for each excavation.
10. Applicants shall submit all necessary plans or plan/profiles depicting the project scope.
11. Any changes or deviations from said plans shall require the Applicant to resubmit revised plans for review from the permitting entity.
12. A copy of this permit shall be retained by the permittee at the job site during construction.

The Public Works Department/Highway Department shall have access to the work at all times for the purpose of inspection. The completed work, including highway restorations, shall be acceptable to the Town Administrator or his authorized representative.
